Mobile Access Control Survey

Join a study to help improve mobile access control. Download the **MithrilAC** app from https://mithril.online and let us help you by going from policies like:

DON'T launch Facebook at work or school

To "please allow Facebook at work or school during lunch" in two easy steps!

Violation annotation: Tell us if detected violations are "True" violations or if you expected the behavior (i.e. "False violations").

Policy modifications: Let us assist you in capturing your preferences through a user friendly app, MithrilAC.

Study participants are required to be at least 18 years of age. All feedback collected will be completely **anonymous** and contains **no personally identifiable information**.
